## BAROIDA PLANTATION COMMUNITY SCHOOL

November 2011 Issue 3

### *World Travelers Visit Our School*

**Gunther Holtorf on top of their faithful blue Mercedes "OTTO" and Primary School Kids.**

Baroida School received the visit of a lifetime!

Gunther Holtorf and his son Martin, in their Guinness World Record Breaking Trip around the World with their Mercedes-Benz G-Wagon, dropped in for a lovely visit to the Farm and our School during their Papua New Guinea journey from Lae to Madang, and up the Highlands reaching Mt. Hagen and back again to the Port of Lae, where they were continuing their trip to Honiara.

They showed the students their Vehicle, named "Otto" all loaded up with all kinds of interesting gadgets and everything 2 people can possibly need for a trip of this magnitude! This included a fold-away kitchen, utensils, small water heater for quick showers, fold-away beds, all kinds of spare parts, etc!

We wish them the best of luck in their upcoming trips which should be finished in 2012.!

**Red Lines indicate all roads travelled by them.**

### In This Issue:

- World Travelers Visit our School
- Carrie Jones — Health & Hygiene Class
- Digicel Foundation & ATprojects
- New Tambourine Classes
- Students of the Month

### *Carrie Jones — SIL*

Carrie Jones, a lovely Missionary from SIL, is well known to our School and Colbran Coffeelands. She has a Master's Degree in Community and Public Health. She does the important task of giving out AIDS awareness workshops to all of our staff.

This Term, she came to our school for an interesting and informative Health and Hygiene Class for the students. Teaching them about bacteria and diseases. Kids learned good techniques on how to wash their hands correctly. We played games and saw microscopic photos of common bacteria found on our hands and under fingernails! Thanks Carrie!

**Digicel Foundation** has been an important benefactor for our school. Last month, we received their latest project approval for 2 new toilets with raised seats and a medium water tank to collect clean rain water for drinking. This project was handled by ATProjects from Goroka. Their staff came and did all the installation in 3 days!

ATprojects also brought a small Television set, and showed the students some great videos on health awareness, proper washing of food before consuming, importance of good toilets and family health.

## *Digicel Foundation & ATProjects*

A special thanks to Digicel Foundation and ATProjects for this important donation.

**New Toilets**

**Water Tank & Tap in Construction**

## *..Listen.. It's the Sound of Tambourines..!!*

Wednesday afternoons are now filled with lovely sounds of Traditional Village Songs, played by the students on their new colorful Tambourines! Church songs and tunes are also very popular:

The kids enjoy their new school activity very much indeed, specially with the school's new boom box. It is also a DVD player, which will be used in the near future for Kids Saturday Matinee movies.!

*Made by Kids ..  
.. Arts & Crafts Corner*

## Students of the Month...

### *Meet Pisila and Naice Aho*

Pisila and Naice are sisters, they are both in Grade 1.

**Pisila's favourite color is Yellow like her dress. She** likes eating Kaukau, while Naice prefers the colour Green and her favourite meal is having Noodles for dinner!

You can find them at recess always playing jingle jungle or hopscotch along with the other girls.

They both like the rugby team Maroons.

Their preferred subject in school is Maths.

They are 2 of 5 other siblings.

When they grow up Pisila wants to be a Nurse, and Naice a Teacher! .

## COLBRAN COFFEELANDS, LTD.

Any help and donations provided would be greatly appreciated.
