BAROIDA PLANTATION COMMUNITY SCHOOL

February 2012 Issue 4

Digicel Double Steel Kit Classroom

In This Issue:

- Digicel Double Steel Kit Classroom Donation
- New Library Shelf
- Digicel Classroom Launching
- Individual Student Blackboards
- Saturday movie Matinees
- Student of the Month

Digicel Foundation donated to our school a beautiful Steel Double Classroom. It comes as a kit structure. It was assembled and finished December 2011. We started using the 2 classrooms this year! Each was equipped with a Large Blackboard. The Kit also included a Large Tuffa Water Tank and a separate Tap unit.

In between the 2 classrooms, there is also a little office with a Notice board!

Besides this wonderful new addition, Digicel also constructed 2 new Toilet units for our students!

Inside a Classroom and one of the new toilets

Thanks to Mr. Maxwell Mossi, of Yeno Mapa Builders from Goroka who were the designated contractors for these works.

New Library Shelf

With all the books we are slowly receiving, a new shelf was in order!

This big Steel Rack now serves as the Library shelf. Soon another one will be needed, to store grade 6 books.

We also will be purchasing new desks for teachers, and a desk for the new office. As well as filling cabinets!

It's exciting to be getting new and much needed furniture!

Digicel Student Blackboards

Digicel also donated individual Blackboards for the smaller kids to draw and do exercises with chalk! Kids love these and are extremely practical for the elementary grades!

Saturday ... Time for a Matinee!

Saturday's will now be movie day! All children will be welcomed to watch a kid friendly or family movie in the Company's Coffee Buying Shed. A big flat screen TV has been placed here on a platform and it will be perfect for kids to enjoy a movie amongst their friends.

Some of the first movies to be screened will be Open Season Parts 1—3, How to Train your Dragon, The Chipmunks, Ice Age 1-3, and Cloudy with a Chance of Meatballs!

National Geographic documentaries and other educational videos will also be shown!

Digicel Launching Ceremony

Mr. Shent Kiddie, along with his Goroka team, graced us with their presence on the Classroom Launching! We had an amazing day with dancing groups, singing, comedians, award presentations and plenty of refreshments! Check out some of the photos!

Meet Privina Stephen Parila...

Privina is now in Grade 4. Last year, she was Top of her class with a perfect score of 100/100. She is now 11 years old. She received a Certificate of Achievement for her hard work.

Privina's favourite colour is Yellow. Her favourite fruits are pineapple and papaya, or pawpaw as it is known here in PNG.

Her favourite subjects are English and Maths. She would like to become a Pilot when she grows up! Her favourite sport is Basketball.

She has one younger sister, Danney, in grade 2.

In the weekends, she likes to go down to the river and bathe with her friends, and also plant her kaukau garden!
